Professor G. R. Henderson,  
University of Chicago.

Dear Professor Henderson:

I have to thank you very much for your kindness in sending me the communication from Dean Marshall with regard to possible men for our position in the training course for Social Service in the University. The field seems to me to be rather restricted, though I hope that we may be able to secure from those suggested by yourself and others some one who will suit us.

Do you happen to know anything about any of these names that have been given to me by gentlemen in New York and by President Graham Taylor? J. M. Magruder, General Secretary of the Federated Charities of Baltimore; Mr. Franklin Johnson of New York; Professor James A. Field of the University of Chicago; Professor Carl Kelsey of the University of Pennsylvania; Professor H. M. Thurston of the New York School of Philanthropy; C. C. Carstens Secretary of Massachusetts Society for the Prevention of Cruelty to Children; G. E. Lewis of the New York School of Philanthropy; Professor J. F. Lichtentherger of the University of Pennsylvania and Rev. J. S. Woodsworth of Winnipeg. I shall be glad to have your opinion with regard to their qualifications.

Yours sincerely,

President.

June 8th, 1914

Professor C. R. Henderson,  
University of Chicago.

Dear Professor Henderson:

I have to thank you very much for your kindness in giving me your opinion as to the various names that I submitted to you with regard to our new post.

I am under the impression that Mr. Franklin Johnson was a son of a professor in Chicago. Was there not a Professor of practical tneology in the University of Chicago by that name?

With kind regards, I am,

Yours sincerely,

President.
